

**Daily Update**  
April 12

### **Geological Work**

Devil's Slide (post mile 39.14)

- Heavy rainfall again today.
- At approximately 2:30 p.m. today, drilling operations were suspended due to a rock fall at the drilling location. The work zone was evacuated immediately. No injuries were reported.
- A second rock fall occurred this afternoon, just south of the Devil's Slide area.

This rockslide occurred today, 4/12/06.

- All Geotechnical investigations and other work in the affected section is suspended until the area is deemed safe.
- A site review will be undertaken Thursday morning

Pacifica Slide (post mile 39.77)

- No activity due to rain.

- The road continues to subside. The shoulder has settled over three feet now.

### **Traffic Operations**

- Suggestions about improving traffic flow along Highways 1 and 92 continue to come in from the community. Caltrans Traffic Operations Division is reviewing these. If practical, proposals may be implemented.
